

Specialization in sustainability at GIUB

1. Name of the specialization: «Master in Geography with special qualification in sustainability»

2. Requirements

2.1. Courses

- A minimum of 15 ECTS needs to be obtained by attending courses dedicated to sustainability issues.
- This concerns both students enrolled in the 90 and 120 ETCS master.
- These courses are available on a dedicated list ([Leistungseinheiten](#)) available on the website of the GIUB.

2.2. Master thesis

- Every unit can host a master thesis in the sustainability specialization.
- The research question of the thesis needs to focus on sustainability.
- A dedicated chapter must be included to reflect on the role of sustainability in relationship to the issue at stake in the thesis.
- The thesis must be presented at the colloquium/group meeting of the host unit.
