

Colloquium in Remote Sensing

Spring Semester 2018

Tuesday, 17:00, seminar room 302, Hallerstrasse 12, 3012 Bern

- March 13 **Stefan Wunderle**
Activities and future projects
- March 20 **Nils Rietze**
Snow cover analyses in Switzerland: Project overview
- March 27 **Pascal Meierhans**
Analyses of diurnal fire cycles and fire duration for Europe for 2005-2007: Project update
- April 17 **Melanie Sütterlin**
Lake surface water temperature with VIIRS: Final results
- Gian Lieberherr**
Lake surface water temperature time series analyses
- April 24 **Eva Calicis *cancelled***
Analyses of spatial and seasonal variability of soil frost in the Bale Mountains:
Project overview
- May 1 **Céline Dizerens**
Towards a webcam-based snow cover monitoring network
- May 8 **Stefan Wunderle**
Long Term Data Preservation of AVHRR: Project Update
- Pascal Meierhans**
Analyses of diurnal fire cycles and fire duration for Europe for 2005-2007: First results
- Seminar Room 104 / 1. OG Ost, Hochschulstrasse 4*
- May 15 **Evi Rothenbühler**
Clouds: Comparison in-situ and satellite products
- May 22 **Helga Weber**
Transfer of AVHRR active fire retrieval from Europe to Amazonia & Siberia
